## Additional notes

Please note that anyone selected who does not have a Level 4 Certificate in Learning & Development or equivalent will be required to enrol immediately and obtain this qualification at their own expense within 18 months of joining the pool. Associates who do not have the level 4 qualification will be paid at the lower rate of £300 per day. All associates are subject to continuous review of their training delivery, which includes multi-source feedback, and where appropriate opportunities for development, and if necessary, removal from the pool if standards are not consistently met. As part of the interview process, we will ask those shortlisted to deliver a short, facilitated session at the interview stage. As part of the interview process all pool applicants will be required to be observed by a college trainer. For those engaged in delivery in the 3 months prior to September it is proposed that those observations will take place as part of those deliveries. The opportunity to undertake an observed session will also be provided to those not undertaking delivery during that period.

Please note that if you are selected into an associate pool, the College cannot guarantee work. Any work arising will be offered on strict rotation. Work will be offered to those in the associate pool in list order. Once offered (even if work is not taken up), the associate moves to the bottom of the list.

The pool will be re-competed (refreshed) in 18 months.

The relevant terms and conditions that apply to these engagements can be found at [Become an associate: Important information](#). These opportunities are open to both personally engaged and corporate associates. A definition of these types of associate can be found in the [associate policy](#).
